Resource File

NAME_____   GRADE: P   F   T- Grade

Your resource file should include any materials you want to take with you into your classroom.

Directions: Materials in the resource file should be organized by subject and content area. Within each area, the following categories should be included. Check these categories that are successfully completed. Failure to complete three (3) of the categories will result in not passing.

_____ 1. Hand-outs are divided into specific categories (content areas: reading, math, social studies, science, etc.)

_____ 2. There are curriculum ideas collected for various content areas with specific categories. These can be ideas from cooperating teacher, Curriculum Library, etc.

_____ 3. Contains ideas/samples of bulletin boards.

_____4. Examples of projects students can make or have been made in the classroom or methods classes.

_____5. Examples/directions for teaching ideas observed or collected.

_____ 6. Any material/ideas you feel will be helpful in the future. (Addresses for web sites, list of books, resources, etc.)

_____7. The file is organized in a manner where materials can easily be retrieved and used for future lessons.
